

Europe melts under Sahara heat wave, smashes heat records

California megadroughts vanished after 1600 but may return soon, study finds

REPORT:
California Wildfires will get worse,
blame climate change

The Climate is Changing

ARE YOU?

Join us

The City wants to hear from you. What can we do to reduce carbon emissions? Are there new carbon reduction activities the City should be looking at as we plan for the future?

We invite you to learn about recent climate actions, such as Community Choice Energy, and provide feedback at a community meeting or through our online survey:

- Attend one of the forums with interactive sessions and surveys. Join staff and Climate Change Working group members to discuss concepts and provide your recommendations.
- Complete an online survey at:
www.chulavistaca.gov/departments/clean/CCWG

**at one of the
forums and
provide your
input.**

Students are encouraged to attend!

Wednesday, September 18
